

Introducing Sound In Motion for iPhone Version 1.0

By Sound In motion Ltd.

Tel Aviv, Israel - April 25, 2017 — Sound In Motion Ltd., a Digital Audio Software company, proudly announces the release of Sound In Motion Light iOS app for iPhone, The first Audio for Video app on iOS, featuring a complete audio suite for iPhone film makers, on Friday, 28 April 2017.

Easily add Soundboard tracks to your film project, utilizing any one of the 10 available soundboards; Footsteps, Swords, Break Stuff, Fight, Animals & Wild Animals, Cartoons, Guns, Magic, Vocal Reactions, Body sounds.

Use the Audio Track & Wave Editor along with your sample library to trim & import any sample to your movie, this can be:

A sample imported from your computer,

A pasted sample from other audio apps using AudioCopy,

A sample recorded from the device microphone.

Other new features include: Get Free soundboards by sharing with friends, easily share video to Facebook or YouTube from within the app.

Click [here to download Sound In Motion for iPhone](#).

Journalists, bloggers, investors and friends may receive a promo code to unlock all soundboards, to apply please email amir@soundinmotionapp.com
